

ZEPROLIN AW

Anti Wrinkle Liming Auxiliary

Chemical composition	Blend of Nitrogenous Amino Compounds
Appearance	Yellow Brown Liquid
pH - value 1 : 10	10.0 to 12.0
Shelf life	Up to 1 year at temperatures between 5 and 40° C.
Dilution	Added Undiluted

Field of application

In the liming process of all types of leathers.

Properties

ZEPROLIN AW reacts with the lime and completely nullify the effect of lime and makes the leather uniformly flat.

As the lime action is deactivated by **ZEPROLIN AW** the problem of swelling and wrinkles and drawn grain is minimised to the core.

As the wrinkles are eliminated the yield and selection is increased which implies that saleable area is increased which results in more profit to the tanner.

Quantities:

ZEPROLIN AW is to be used from 0.5% to 1.5% depending on the type of leather before addition of SODIUM SULPHIDE.

The amount of SODIUM SULPHIDE to be reduced accordingly.
