## Field of application

As spew retardant and to improve tensile strength of the leather. Mainly used in Garment & Gloving Leathers

## Properties

**ZSIVIROL CA is a unique formulation withstanding sub-zero temperatures and prevents the moisture entering into the leather thereby controlling the humidity entering into the leather. When leather is not attacked by moisture the chances of spew formation is controlled and curtailed.**

Very Good light fastness and can be used for white leathers.  
Produces Excellent waxy touch with smooth grain.  
Gives spongy feel.  
Well suitable for garment and light weight leathers.
