

ZEPROLIN CDT

Chrome Stripping cum Bleaching Agent

Composition of Chemicals	Blend of Organic Compounds
Appearance	Whitish Powder
Solids	98%
pH (1:10)	1.0

Properties:

- » ZEPROLIN CDT is a blend of special organic compounds which will readily react directly with the chrome present in the leather and strips it out to the maximum possible extent.
- » ZEPROLIN CDT can also be used to bleach both chrome and vegetable tanned leathers.
- » ZEPROLIN CDT is also effective in removing iron stains caused by mechanical operations.

Usage :

For Detanning and Stripping out Chrome :

After Wetback, with 100% water float, Use upto 3% ZEPROLIN CDT and run for 90 minutes. Leave Overnight and drain the water and continue further process.

For Bleaching :

For Vegetable Leathers : 0.5% Upto 1%

For Wet Blue : 0.4% Upto 1%

Note : The product being combination of various raw materials, there are chances of variations in colour and viscosity. The property and application of the product will remain same.
Store within 5°C to 35°C in original pack with tightly closed.

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications. As the usage of the product by the consumer is not under our control, we are not liable for any sort of claims or reimbursements. The product is given without any guarantee/warranty in connection to end use.
