

ZSIVIRA

ZSIVITAN ZLX

Sulfone Syntan Powder

Chemical composition	Sulfone Condensate free of Bisphenols and free formaldehyde
Solids	98%
Appearance	White Powder
pH - value 1 : 10	3.0 – 4.0
Charge	Anionic
Shelf life	Up to 10 months from the date of manufacture
Dilution	Added Undiluted

Field of application :

In production of chrome free leathers where fullness, tightness with clean dyeing is needed.

Properties :

- » ZSIVITAN ZLX gives leather very good fullness and a smooth and fine grain with good filling.
- » Exhibits excellent light fastness and heat migration fastness and hence suitable for white and pastel shade dyeing .
- » When used in Wet White it will provide brilliant white colour.
- » Can be used as a single syntan for white leathers and Brilliant pastel shade dyeing.
- » In Dyeing, it will not allow dye fix on the defects and hence the leather will have uniform shade without any dark spot on the defects.
- » In vegetable tanning it improves the colour and light fastness and better dispersion of veg tans.
- » Best suitable for Nubuck and suedes as it provides close grain and improves buffing property.

Usage Quantities :

Wet White Pre-Tanning : 3 – 4%
Retanning : 3 – 8%

Note : The product being combination of various raw materials, there are chances of variations in colour and viscosity. The property and application of the product will remain same.
Store within 5°C to 35°C in original pack with tightly closed.

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications.
